Full-time

Date posted
September 14, 2022

Valid through
15.10.2022

Description

We are seeking a well-organized, highly motivated qualified, and passionate professional willing to share in our vision and join the team in the role

Responsibilities

- Machine operation in adherence to company environmental policies and objectives.
- Calibrate the machine before production begins.
- Monitor and control the machine's performance and settings.
- Regularly conduct tests of the machines' performance and operating capacity.
- Feed raw materials into semi-automated machines and help the assembly line.
- Check the output of the machines and identify any issues.
- Keep an updated database on all of the machines' information, defective units, and final products.
- Maintain a log of activities.
- Regularly submit performance reports.
- Perform periodic checks on equipment and solve or report problems and defects as detected.
- Keep the machine in clean working condition with full environmental consideration in the disposal of all cleaning agents and waste generated in the process.
- Ensure that the working place is clean and safe with full environmental consideration in the disposal of all cleaning agents and waste generated in the process.
- Load and offload equipment from vehicles.
- Ensure proper and safe storage of plant in accordance to manufacturer's instructions and no leakages
- Use the correct equipment for the correct task
- Keep a record of working hours, consumption, defects, and repairs

Qualifications

- Certificate in machine operating or a related field.
- Prior experience as a machine operator.
- Strong knowledge of heavy-duty and high-speed machinery.
- Strong ability to use measurement tools.
- Good understanding of production procedures and best practices.
- Excellent knowledge of safety methods and hazard regulations.
- Ability to read manuals, blueprints, and handbooks.
- Good physical stamina and keen attention to detail
